

# The Next Generation of Glass Display Doors

## Gemtron: The Choice Is Yours

*Whatever Your Needs, Gemtron Has the Perfect Solution*

Commercial refrigeration solutions from Gemtron offer outstanding quality and value—along with a high degree of flexibility. Backed by a 30-year history of innovation and product leadership—and a partnership with global refrigeration leader SCHOTT TERMOFROST®—Gemtron is establishing itself as the premier supplier of refrigeration systems for convenience stores, supermarkets, drugstores, buying clubs, foodservice equipment, and other retail environments.

Gemtron's extensive product family includes premium refrigeration solutions that offer significant advantages over existing technologies—while meeting virtually every performance and aesthetic requirement.

### High-Quality, Innovative Product Options

> **tundra™: Energy-Free Performance for Normal-Temperature Environments**

Gemtron's Tundra™ door system is perfect for energy-conscious retailers—combining practical features such as energy efficiency and low maintenance with an attractive design that protects against condensation up to 72% relative humidity. Built for normal-temperature environments, Tundra™ delivers rugged, durable, reliable performance.

Gemtron's Tundra™ offers outstanding protection against condensation—while also achieving excellent energy efficiency.

> **sierra™: A Clear Advantage for High-Humidity Environments**

For the most demanding normal-temperature conditions, Sierra™ doors and frames offer a clear advantage: excellent visibility and guaranteed performance. Designed for high-humidity applications, Gemtron's Sierra™ product line ensures optimal merchandise displays under the toughest conditions.

> **polar™: The High-Performing Solution for Low-Temperature Applications**

In low-temperature environments, retailers are looking for high performance, durable construction, and exceptional energy efficiency—and Polar™ door systems from Gemtron were developed with these real-world needs in mind. With industry-leading product features, Polar™ sets the standard for low-temperature displays.

Polar™ door systems from Gemtron deliver durability and efficiency in rugged low-temperature applications.

> **yukon™: Exceptional Glass Door Solutions for Value-Minded Retailers**

Gemtron's Yukon™ product family combines outstanding performance with extremely attractive value. With a solution for every environment—normal-temperature, normal-temperature with heat, and low-temperature—Yukon™ products offer many features typically found in higher-end door systems.

Like all Gemtron door systems, Yukon™ models feature high-efficiency T-8 lighting

*Gemtron offers one of the broadest product lines in the industry—  
with an innovative solution for virtually every retailer need.*

# High-Quality, Innovative Product Features

*Gemtron's Standard Features Are Anything But Average*

**G**emtron has raised the bar in the commercial refrigeration industry—with a range of product features and performance benefits that are setting a new standard for quality. For each member of its product family, Gemtron also offers a spectrum of choices that enable you to customize your solution to meet your unique demands.

## A Door Size and Type for Every Application

Designed to meet virtually any display need, every Gemtron door model is available in 14 standard sizes, with custom sizes also available. In addition, Gemtron offers special products—such as walk-in entry doors and fixed windows—to accommodate unique display needs.

## Bringing Excellence to Light

Every Gemtron door system includes pre-mounted T-8 high-output, high-efficiency lighting with a snap-in lens. By directing illumination to the center of the shelf, Gemtron's advanced lighting systems deliver the best of both worlds—maximum visibility and minimal glare. Standard features include a proven electronic ballast, low-profile fixture, and sealed bulb design that maximizes light output.

## Gemtron Shelving: A Firm Foundation

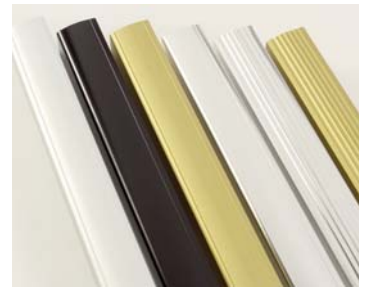

Gemtron shelving is sturdy, attractive, and easy to maintain—providing a firm foundation for a successful refrigerated display. Every Gemtron shelf features heavy-gauge construction, a durable epoxy coating, and posts that are easy to install, adjust, and level.

## The Finishing Touch: A Spectrum of Door/Frame Finishes

While Gemtron doors and frames are built for performance and durability, Gemtron hasn't forgotten the aesthetic needs of its customers. Gemtron doors and frames are available in an array of finishes. Whatever your retail environment—from traditional to modern—Gemtron offers a finish that is the perfect complement to your unique display vision.

With their unique lens design, Gemtron lighting systems deliver up to four times the center-shelf illumination as competitive systems.

Gemtron customers can choose from a spectrum of door/frame finishes—including Polished Aluminum, Black, Smooth Gold, Silver Satin, Silver Serrated, and Gold Serrated.

## The Gemtron Family of Accessories and Options

Gemtron's door systems come standard-equipped with a broad range of product features and benefits—and Gemtron also offers a full spectrum of product accessories and options to customize your retail display. Gemtron has created user-friendly accessories that make it easier for shoppers to access products—including gravity-flow shelving, baskets, step shelving, push bars, and many other product options. Gemtron has also designed a family of innovative accessories to accommodate refrigerated standbys such as beverages, yogurt, and deli products. With a spectrum of choices in every product category, Gemtron makes it both easy and cost-effective to custom-tailor your display.

Available in white or black, Gemtron shelving features a user-friendly, durable design.

# The Benefits of Working With Gemtron

*Partner With the Industry Leader*

Supported by its partnership with global refrigeration leader SCHOTT TERMOFROST®, Gemtron has set out to revolutionize the North American food display industry. Gemtron's commitment begins with industry-leading products—and continues with service and support that represent new industry standards.

## Innovative Product Solutions—at an Attractive Price

With 30 years' experience in serving diverse markets, Gemtron delivers product solutions that combine cutting-edge innovation with outstanding cost-effectiveness. Whatever customers' needs, Gemtron's product development, manufacturing, and logistics experts work together to create and deliver exceptional value.

## Outstanding Support—Before and After the Sale

Gemtron's sales team understands your economic and performance needs—and will work closely with you to specify the right product solution. From configuring your overall display to choosing the perfect accessories and options, Gemtron can help you create a truly unique merchandising solution. After the sale, Gemtron's team of highly qualified technical support professionals can guide you through both product installation and maintenance.

## An Industry-Leading Warranty: Gemtron's Promise

Gemtron also offers one of the industry's best warranties—protecting your investments in its products. Gemtron door systems are warranted against defects in materials or workmanship—and this outstanding warranty also protects against condensation between glass panes for 10 years. Gemtron has a high degree of confidence in its products—which means that retailers can rely on Gemtron door systems to perform over the long term.

## Fast, Cost-Effective Delivery—No Matter Where You Are

Gemtron's centrally located manufacturing facility in Madisonville, Kentucky, places the company close to a majority of customers. The result? Fast and cost-effective delivery of Gemtron orders, wherever you're located.

**Gemtron's central location adds up to fast, easy, and cost-effective delivery for most retailers.**

## GemQuote™: The Ultimate in Responsiveness

There's yet another benefit to working with Gemtron—the company's unique GemQuote™ online pricing tool. Available 24 hours a day, seven days a week, GemQuote™ is a flexible way for Gemtron customers to generate immediate price quotations for Gemtron door systems—as well as compare different models, accessories, and options. By leveraging the power and accessibility of GemQuote™, customers can quickly customize a glass door system to their own unique performance demands—and economical needs. GemQuote™ offers speed, as well as a user-friendly format that's unmatched by competitive tools. Customers can link to GemQuote™ by visiting [www.gemtronfooddisplay.com](http://www.gemtronfooddisplay.com).

**GemQuote™**

With sturdy construction and a dual-seal design, Gemtron's glass display doors carry one of the strongest warranties in the industry.

Gemtron's customer support team stands ready to assist retailers in maximizing the performance of their glass door systems.

## Customize Your Display With Nearly Infinite Options From Gemtron

Gemtron has created a broad product family to meet your most exacting performance and aesthetic needs—and Gemtron’s accessories and options make it easy to customize your display. All Gemtron doors have been tested for more than 500,000 openings, to ensure maximum versatility. No other commercial refrigeration manufacturer offers so many choices—and so much flexibility.
