Walk-in Coolers And Freezers

202203

U.S. Cooler® manufactures all sizes of walk-in coolers and freezers for the Food Service, Restaurant, Grocery Store, Institutional and Convenience Store Markets. These walk-ins are supported with a complete line of engineered refrigeration systems, glass doors, parts and accessories.

WHAT MAKES US DIFFERENT

U.S. Cooler® continues to invest in the latest technology for both product materials and production facilities in order to provide our clients with the most efficient, cost-effective cooling systems and a variety of online services. We also have the manufacturing capability of providing two unique insulation options; Extruded Polystyrene and Foamed-In-Place Polyurethane. With U.S. Cooler®, you choose your insulation options and receive U.S. Cooler's® exceptional quality and service.

CUSTOM WALK-INS ARE OUR SPECIALTY

U.S. Cooler® was built around the ability to manufacture custom-sized walk-in coolers and freezers the same way as standard walk-in sizes. Our unique automated process allows panels to be manufactured to configure to any size walk-in cooler or freezer at the same cost and production time as standard sizes. U.S. Cooler® will manufacture to your exact specifications. We let you design your walk-in instead of the manufacturer. U.S. Cooler® leads the industry in this capability.

IT'S YOUR CHOICE

U.S. Cooler® empowers you to decide the specifications and design of your walk-in cooler or freezer. Our unique manufacturing capabilities not only allows you to choose the material and color of metal finish, but also allows you to select the insulation material that you desire.

U.S. Cooler® uses two different manufacturing techniques while most other walk-in manufacturers only offer one. By only offering one manufacturing process, the choice becomes theirs; not yours. U.S. Cooler® believes the choice should be yours.

CUSTOMER SERVICE

Though technology is vital to U.S. Cooler's® innovative philosophy, we have not lost our personal touch. While most companies use computerized phone voices that direct you to a list of options that you are not interested in, U.S. Cooler® does not. Instead, there is a real person to answer your call and direct you to a professional, knowledgeable, staff member.

U.S. Cooler's® sales and customers service representatives have years of experience with our company, walk-in design, production, sales and service. Our professional, highly-trained staff assures our customers quality customer service that other companies lack. We believe in and support our product, by offering exceptional post-sale customer service.

From the initial quote request through product delivery, there is a U.S. Cooler® company representative ready and willing to help with your every walk-in cooler or freezer need.

U.S. Cooler® prides itself on having real people answer the phone and direct you quickly to someone who can help you.

Time is money and U.S. Cooler® recognizes that. We work to ensure quick delivery to all customers, regardless of their application. We also provide a variety of online services to help save you time and get information at the click of a mouse. You can view in-plant pictures of your product, create a drawing, submit quotes, check order status and receive sizing recommendations, all by visiting our website at www.uscooler.com.

To ensure a quality product, U.S. Cooler® pre-assembles each walk-in in our plant for a thorough inspection before shipment. A picture is taken of each order to assure the customer that their walk-in has been quality tested. A live webcam shows our setup department assembling every order that is produced. We know that you count on us and we take every step possible to ensure that we fulfill your expectations.

Visit www.uscooler.com/ to see our live webcam featuring our setup department.

APPLICATIONS

RESTAURANTS

U.S. Cooler® recognizes the need for quick delivery and custom designs for restaurant applications. With a wealth of experience in providing cold storage to single restaurants and restaurant chains, U.S. Cooler® knows what is important to restaurant owners and operators.

CONVENIENCE STORES

We have extensive experience designing walk-ins for convenience store applications. With custom designed angled boxes, glass doors, display shelving and much more, U.S. Cooler® is the place to go to purchase a walk-in for your convenience store application.

WAREHOUSES

Our light-weight, easy-to-assemble, cold storage warehouse applications have internal and external supports to ensure maximum strength and stability. We also provide sliding doors and large walk through doors to accommodate personnel and equipment.

GROCERY STORES

U.S. Cooler® has produced many walk-ins for large grocery store chains, so we are familiar with the needs that accompany these orders. With a full line of walk-in accessories available, U.S. Cooler® can provide for your grocery store needs, whatever the application.

REFRIGERATION

U.S. Cooler® specifically outfits each walk-in cooler or freezer to ensure that your unit is matched with the appropriate refrigeration. Our team will work to find a solution that fits the application and aesthetic goals of your project.

BREWERIES

Our refrigerated warehouses uses 4-inch-thick insulated panels that exceed efficiency standards for walk-ins set by EISA. Efficient and powerful refrigeration systems are supplied to keep all your beer chilled while awaiting shipment.
